

Drawer unit 71

Less than 50 cm deep, this drawer unit is ideal for use in narrow spaces, such as in vehicles. The units come with a rubber mat that stops items from sliding on the surface. The drawers have ball bearing runners and safety locking which prevents other drawers from opening

while one drawer is open.

This same drawer unit is used in the service trolley with castors p. 48. The drawers are 90% extendable and their load capacity is 50 kg.
